25X1

1. The following items from DTR's dispatches [redacted] are quoted for your information and such action as may be necessary:

25X1

a. [redacted] Apparently the majority of the problems involved in the establishment of the training site for project [redacted] have been ironed out and it is ready when needed except that there is still no guidance available for further development due to absence of operational training requirements. This appears to be the only part of the [redacted] effort that has to date a foundation in fact. Other phases [redacted] seem to be moving slowly. [redacted] are not aware of the efforts being made by Headquarters to locate an area for training and other purposes [redacted]. This should be followed up immediately with appropriate Headquarters personnel."

25X1

b. [redacted] Apparently [redacted] are being done by [redacted]. Anticipate use of [redacted] training site for [redacted] training needs. Suggest Training [redacted] provide through [redacted] a specific outline and format for training annexes to [redacted] plans which will standardize the several annexes and point up essential information to be included therein."
